READERS GUIDE

We are pleased to present you with the 4th implementation report for 2023. In this report you will find insight into the financial developments of the Public Entity Saba for the period January through December 2023. It also shows a comparison of the results achieved in the 4th quarter 2023 with respect to the approved 2023 budget.

This report provides a broad overview of the financial standing as per 31 Dec 2023. Reporting on departments and projects will be provided in the annual financial statement 2023. In addition, no budget amendment is included in the 4th quarter report.

In the fourth implementation report, the Public Entity Saba provides a shortened version of the implementation report which provides detailed overviews of the financial figures. You will find the following chapters in this part of the report:

1. Introduction
2. Main Functions
3. Financial Management
4. Local Levies
5. 'Verkorte' Balance Sheet
6. Liquidity Analysis
7. Expenditure during the first quarter
8. Income during the first quarter
9. Overview of personnel
10. Overview special purpose grant salary costs
11. Overview of Project Funding
12. Overview of Economic Categories

PART 1: FORTH QUARTER IMPLEMENTATION REPORT 2023 – PUBLIC ENTITY SABA

1. INTRODUCTION

It is important to note that the figures presented in the 4th quarter report are based upon the available figures and information prior to the finalization and audit of the financial administration. This means that the figures are not final and adjustments will take place after this report. Final corrections and provisions made to the financial figures will be reflected in the annual financial statements 2023. Examples of these include, but are not limited to, the provision to the pension fund, reserves, as well as any adjustments for late invoicing and payments received. Whilst there is a positive balance of US\$ 1.088.963 under the annual financial result (Rekening resultaat) on the balance sheet, it must be noted:

1. There are a significant number of 2023 invoices that still need to be processed meaning that there will be a large impact on the result. Total impact is still not clear, as invoices are still being received.
2. An amount of US\$ 250.000 is set aside as a co-payment from the Free Allowance towards a building which will be registered as an investment. The building will be used as office space as well as a shelter for people in need of shelter as a result of domestic violence, hence the split in payment between a Special Purpose Grant and the Free Allowance. Although it will not impact the positive balance, it will impact the liquidity position of PES.
3. An amount of EUR€ 467.000 was received via the Free Allowance in late December for The Saba Package 3.0. Due to the late receipt, this has not yet been included in the Q4 figures and will result in a budget neutral effect. As we originally anticipated the funds to come in via a special purpose grant, invoices will have to be moved from the Special Purpose Grant to the Free Allowance.
4. The calculation of the provision of bad debts will be calculated once all administration is completed. This will also have an effect on the balance.

It is also important to note that adjustments may be made to the previous quarter's tables due to updated information.

2. MAIN FUNCTIONS

The tables provided in this section of the implementation report, provide separate overviews of the expenditure and income for January through December 2023 per main function and further broken down into the relative functions.

3. FINANCIAL MANAGEMENT

Throughout the 4th quarter, Public Entity Saba (PES) remained engaged in collaborative efforts with ministries, with a key focus on integrating structural tasks currently reliant on special purpose grants into the Free Allowance framework. This strategic shift aims to enhance PES's financial stability and facilitate proactive long-term planning.

The Island Secretary and the Head of Finance participated in a workshop at CFT alongside representatives from BZK, Bonaire and Sint Eustatius. Central to discussions was the Ideversa Report, which analyzed island tasks and resources in the Caribbean Netherlands. However, challenges arose due to the report's deviation from the established FINBES structure, opting instead for a more up-to-date reporting method that is used in The Netherlands. Unfortunately, this made the report very difficult to read due to the differences in financial structures at PES. In addition, it combined special purpose grant funding with the free allowance, it relied on historical information and did not consider the actual needs of Saba. A discussion was also had with BZK with regards to the manner in which funding is received from them. Furthermore, dialogues with BZK highlighted concerns over the timing of funding disbursements, as it makes it very difficult to plan when funds are received in the last portion of the year and the funds must be spent with a very short lead-time. A letter of response on the research will be sent to the ministry of BZK at the end of January 2024.

In October 2023, during the visit of the State Secretary, the Saba package was finalized and signed, underscoring principles of good governance and emphasizing the pivotal role of PES's implementation power and organizational capacity (uitvoeringskracht). This agreement seeks to fortify PES as a resilient government entity capable of delivering essential services and fulfilling statutory obligations. Within this agreement, reallocation of incidental special allowances was agreed on in the amount of US\$1.759.523 and additional incidental funding in the amount of Euro 0.71 for strengthening of execution power in connection to the PES Organizational Development Plan 2023-2030. This is a temporary fix for 2023 and 2024 until structural financing can be agreed upon.

An on-site assessment conducted by a Centric representative shed light on the constraints imposed by Saba's current utilization of Centric software. Subsequent recommendations are anticipated in a full report outlining essential training needs and identifying supplementary modules essential for streamlining financial workflows and reducing manual administrative burdens.

Moreover, PES remains committed to addressing outstanding debt. Contact has already started with debtors, commencing debt collection efforts with major debtors. Discussions will soon be initiated with internal and external stakeholders to establish payment plans. Future steps include further tackling debts and implementing measures to mitigate irrecoverable debts arising from various circumstances such as decease or business closures. A public notice and reminder will be made to debtors to come and settle outstanding debts and the policy will be made public for transparency.

4th Quarter Implementation Report & Budget Amendment 2023 – Public Entity Saba

4. LOCAL LEVIES

The following table provides an overview of the local levies collected during the 4 quarters of the year. In the fourth quarter, a total of US\$ 155.648 was collected in local levies, contributing to an annual sum of US\$ 836.188. This is US\$ 9.112 lower than what was budgeted.

As can be seen below, it is evident that most local levies align closely with their predicted budgets, ranging within 10% - 15%. However, a notable exception is the Tourism Tax, where no collections were recorded in the fourth quarter. Addressing this issue requires a thorough evaluation of accommodation tax collection, necessitating the implementation of additional controls. Consideration of an alternative collection method may provide a viable solution to this challenge.

4.1 LOCAL FEES

The following table provides an overview of the local fees collected during the 4 quarters of the year. In the fourth quarter, a total of US\$ 68.986 was collected in local fees, contributing to an annual sum of US\$ 434.474. This is US\$ 4.026 lower than what was budgeted.

While the majority of local fees closely align with their anticipated budgets, there is a noteworthy exception in the case of Water Supplies. The recorded income for water in the fourth quarter is relatively low due to many bookings for water income not being accounted for yet. These bookings will be reflected in the annual financial statements.

0.0 NIET IN TE DELEN INKOMSTEN/ UITGAVEN

There is a remaining balance of US\$ 432.639 under economic category 0.0, this is made available for unforeseen costs which is used to cover the annual budget amendment changes. This is the amount remaining unused for 2023, there may decrease as we will await costs incurred in 2023, this will them be reflected in the annual report.

1.0 SALARISSEN EN SOCIALE LASTEN

There is a remaining balance of US\$ 152.671,67 under economic category 1.0, this is due to a few vacancies not being filed before the year ended.

3.4 OVERIGE GOEDEREN EN DIENSTEN

There is a remaining balance of US\$ 718.165,03 under economic category 3.4, this is partly due to an outstanding number of invoices still to be processed for 2023.

4.2 OVERIGE INKOMENS OVERDRACHTEN

There is a remaining amount of -US\$ 223.339,93 under economic category 4.2, this is mainly due to a subsidy that was covered by a special purpose grant. The budget was made available under the special purpose grant cost center and not that of the subsidies.
